Our Chairman's Message

I hope this message finds everyone safe and healthy. We are all looking forward to moving ahead with our plans for 2021 and NCRS. I think this is a good time to start making plans to attend chapter meets and if time permits stretch your wings a bit and try an out of state regional or better yet, go to the National Convention in Palm Springs.

The last NCRS event we went to was the Florida Regional in February 2020 and although we about froze to death in Florida we still had a great time and a good turnout for our chapter. We have a vendor spot every year in the swap area and use most of our space for Louisiana hospitality so its always a popular place for NCRS friends to gather. Our plans are to go again in February 2022 when Florida will have the Regional in Lakeland again. Those dates are February 24-26, 2022. It will be the perfect venue for us to promote our Regional for April 7-9, 2022. Put that on your calendar!

We have been working hard on preparations for our Louisiana Regional in New Orleans (Kenner actually) at the Pontchartrain Center on April 2022. We can use everyone's help in finding sponsorships, which are critical in making this event a success. The sponsor form is in this newsletter so if you make a copy and give it to someone who wants to promote our event all the details are there for a sponsorship.

There is also a list of volunteer positions that we could use your help with for the Regional. Check out that page and see if there is something you think you could help with.

Good news is that we are planning a Chapter Judging Meet in Covington for September 18, 2021. We will post info on the website and online registration as soon as we can post to NCRS site. We will be looking to judge two cars and hope we have members participate as judges as well. We will have a general membership meeting at this event also. Mark your calendars!

In February we had a zoom meeting with seven members of our chapter and the number one question that was asked was "where is everyone and why aren't they on zoom." We did accomplish some things and would like more participation. We will try again soon, so brush up on your zoom skills and hopefully you will drop in and check it out.

I hope everyone likes the newsletter that our new editor Kim Avery has put together. She has volunteered for this job, but as we all know, the newsletter needs content, so please send her any interesting things you have been doing with your Corvette or family, any pictures you want to share or even send her an ad to post for all those parts just taking up space in your garage.

Thank You Kim! Outstanding Job!!

Is the “Pan-dammit” Over Yet? By John Maggiore

I don't know about you, but I need to get out and drive to a car event. The local car club in Hammond finally started up their monthly cruise nights in March. Unfortunately, I was too busy with work, so my plan was to get the '63 coupe ready for the April event.

But, before I get into that, let me say the last time the car was out of the shop was in October for Cruising the Coast. Unlike all the past years, Dale and I didn't stay in Gulfport or Biloxi. She and I drove her 1966 pickup to registration on Wednesday, and spent the day relaxing at Cruise-In-Central, and drove back home Wednesday evening. On Thursday morning my son Nathan and I drove the '63 to all six venues, had a great time, but again returned to Hammond in the evening. It was great to finally get out and enjoy the car. But, unbeknownst to me, the power steering pump was about to fail. The following week, I backed the car out of the shop, and the pump was DOA. No big deal, just change it, right. Wrong! Building a rest-o-mod, in my opinion, is easier than restoring a Corvette for flight judging. Need parts, just pull out a Summit Racing catalog, and start shopping. My serpentine belt system came from Vintage Air. Easy, call Vintage Air and ask, what power steering pump do they use. No not easy, the parts person had no idea. They outsource to Detroit Speed. When you call Detroit Speed, they won't tell you, but they will be happy to sell you a new pump. OK, buy a new pump and change it out. Problem fixed!

Now back to the April Hammond cruise night. A week before the planned cruise night, I pull the cover off the '63, and take it for a ride. Wait, I hear a strange noise. Remember building a rest-o-mod is easier than building a Corvette for flight judging, just pull out a Summit Racing catalog, and start shopping. I couldn't just put power steering in the car, no, I had to be exotic and put “electric” power steering in the car. Well, the electric pump that supplies the boost to the master cylinder was DOA. It was running, and supplying boost to the master cylinder, but the damn thing wouldn't stop running. Come to find out, the pressure switch is looking for 2,000 psi, but mine was falling short of the goal. Well, Dale and I did make the April Hammond cruise night, she in her '66 pickup, and me not in the '63. Hopefully the new replacement pump will be in soon. Who knows, the '63 may be ready for the May cruise night.

NCRS Chapter Award Program

The NCRS Chapter Award Program was developed to promote involvement and participation by members in their chapter events while encouraging the sharing of knowledge in the restoration and preservation of the Corvette. The program measures the performance of each chapter against standard award criteria similar to the principal used in NCRS judging. Each chapter is eligible to receive an award every year after submitting the required quarterly reports and fulfilling the required criteria. The Award Program is based on the calendar year January 1 to December 31. Recognition Certificates are issued in February, and the award is presented to the
